"RestArt": The exhibition you should not miss

JULY 13, 2015

From today, at 20:00, the "RestArt" multimedia exhibition will open its doors in the DESTIL-Albania area. A project by Expoart.40 that aims to bring to a single space, the chaos that our society is living, stimulating the senses of the public through different mediums. This project was realized during the month of May in Pristina and as the artistic director and curator of the event, prof. Majlinda Kelmendi, now this project will also reach the art-loving public of Tirana.

Part of this exhibition will be internationally renowned Albanian and foreign artists in the field of contemporary art who will bring works in different genres of art: photography, video, installation, painting, etc. The artists who will be participating in this exhibition are Burim Gashi, Dusan Zidar, Irena Paskali, Katerina Belkina, Klodian Deda, Susanne Hofer, Tanja Kalf, Teuta Jashari Kajtazi and Eris Kajtazi.

"RestArt" seeks to provoke society through artistic works to give an answer to the questions that everyone asks about this chaos of political, economic and social life. In this way, it is thought that this exhibition will contribute to sensitizing the whole society for a radical change, first of all, of the beneficial, intriguing, anti-value mentality, corruption, indifference, etc.
